

MATRIX

VRS WEIGHT STACK KITS

Create a more enjoyable training environment by adding our exclusive Vibration Reduction System to your Matrix strength equipment.

- Reduces sound from dropped weight stacks by up to **43 percent**
- Reduces transferred vibration by up to **50 percent** for spaces above, below or adjacent to training environments
- Reduces wear and tear caused by rebounding weight stacks
- Specifically designed to fit and maximize the performance of Aura, Versa, and Go Series single- and multi-station units
